Second Municipality Workshop Held

A second workshop for municipalities was held on July 12, 2007 in Newark, bringing together municipalities in the lower 8 miles of the Passaic River and in the Newark Bay area with federal-state partner agencies to discuss possibilities for integrating municipality plans and visions with federal-state cleanup and restoration projects. This workshop was a follow-up to the April 18, 2007 municipality workshop. Click here to find out more about the meeting by reading the work shop summary.

Subject Question

Has there been a follow-up to this report I found on the internet? The results of this meeting might be of interest in one of our workshops. Thank you.
